IN THE 1ST CALL OF THE EU FP6 RESEARCH PROGRAMME**

**STRATEGIC OBJECTIVE 2.3.1.3
'BROADBAND FOR ALL'**

This questionnaire aims to identify possible standardization issues related to the results of your project, in order for these issues to be addressed through the COPRAS project and to facilitate your project's cooperation with relevant standards bodies or industry consortia.

The questionnaire contains 2 main sections focusing on general issues related to research and standardisation as well as specific areas in which your project may address standardisation issues. At the end of the questionnaire, you can enter additional remarks you may have.

2. STANDARDISATION ISSUES ADDRESSING SPECIFIC AREAS

In this section you are invited to identify in which of the areas specified below the results of your project may concern standardization issues.

You may do this by listing technologies, specifications or other output such as guidelines or 'best practice' documents, resulting from your project that you envisage being candidates for European or global standards or otherwise expect to be relevant in supporting or initiating standardisation processes.

You can indicate whether it concerns issues playing an important – or even a key – role in your project or whether they represent minor issues (please tick the appropriate box).
