UNFOLD overview: aim

- To accelerate the adoption, implementation, use and further development of open standards that:
 - support multiple as well as single learners
 - support a wide range of present, as well as future, pedagogical models.
- Focus on IMS Learning Design
- Jan 2004 - Dec 2005

Structure of UNFOLD Communities of Practice of Practice

At present these links are weak. UNFOLD will ensure that they are strengthened, and dialogue maintained

UNFOLD activities

- Coordinating action: money to support coordination, not development work, or trials, ...
- Raising awareness of the specification
- On-line Community of Practice facilitation, face to face meetings
- Public workshops, Community meetings,
- Feedback to specification developers: definition of extensions and modifications?
