

BONDI

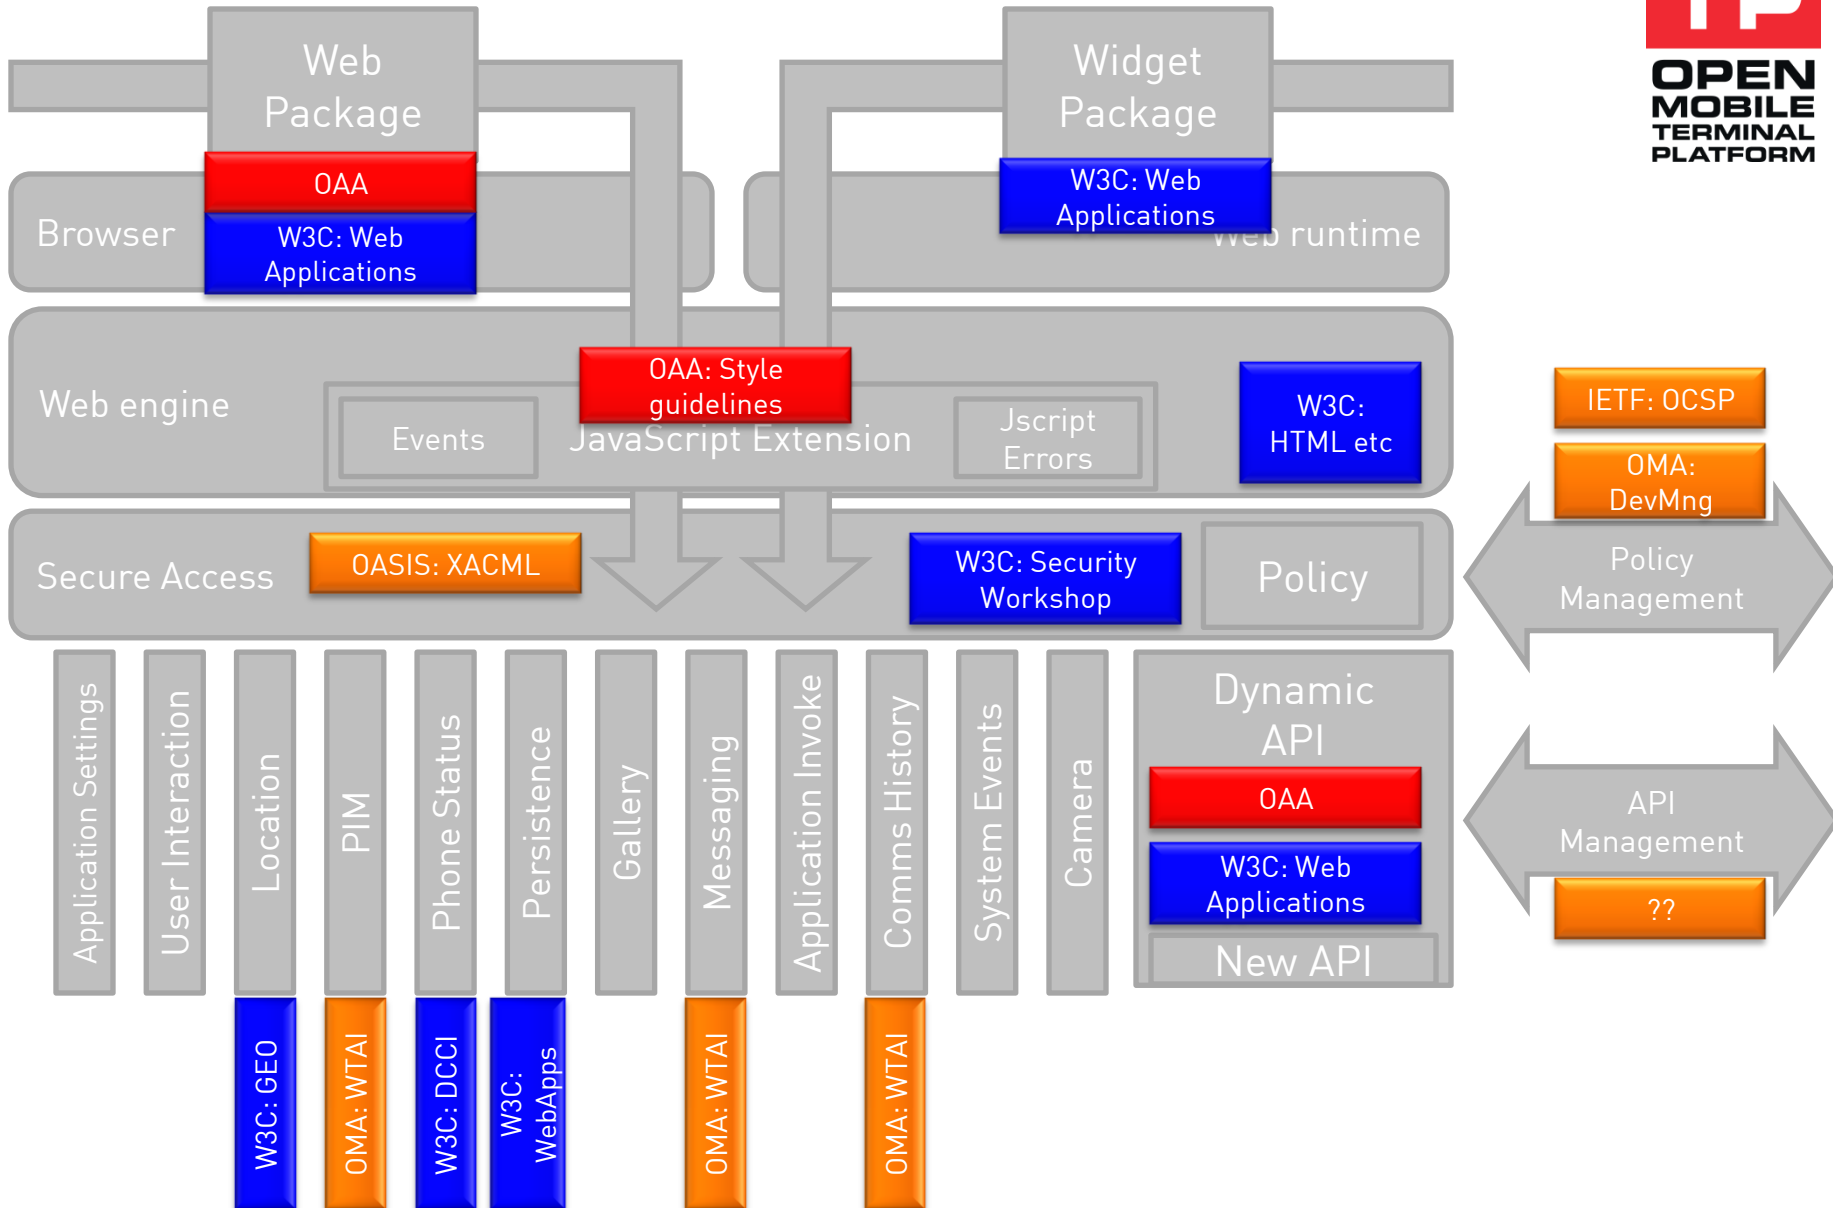

To consistently and securely open up
access from web applications to
device and network resident
capabilities

Dr Nicholas Allott
OMTP Chief Technology Officer

BONDI scope

BONDI standards mapping

- Rapid convergence of existing implementations
- Open source as
 - Mechanism of collaboration
 - Proof of “implementability”
 - Resource to encourage market adoption
- Security
 - User controlled
 - Fit for purpose
 - Strong enough
- Open practices – Royalty Free IPR policy
- W3C as preferred body for standardising required interfaces
