Speech-enabling your web pages

Dan Burnett, Voxeo
W3C TPAC, November 2010
HTML Speech Incubator Group

- Chartered August 2010 (for one year)

- Participants include Google, Microsoft, Mozilla, AT&T, Nuance, Loquendo, Openstream, and Voxeo

- Others are welcome
So far . . .

- Collected rough set of use cases, requirements, and proposals
- Now reviewing and consolidating requirements
- Security and privacy
- Control over selection of speech resources
- Others are welcome
Next steps

- Prioritize requirements
- Develop API/group proposal
  - Other participant(s) are welcome
- Recommend work to HTML (5?/6?) group
