# e-Government Core Vocabularies handbook

## ISA Core Vocabularies

# Core Public Service Vocabulary

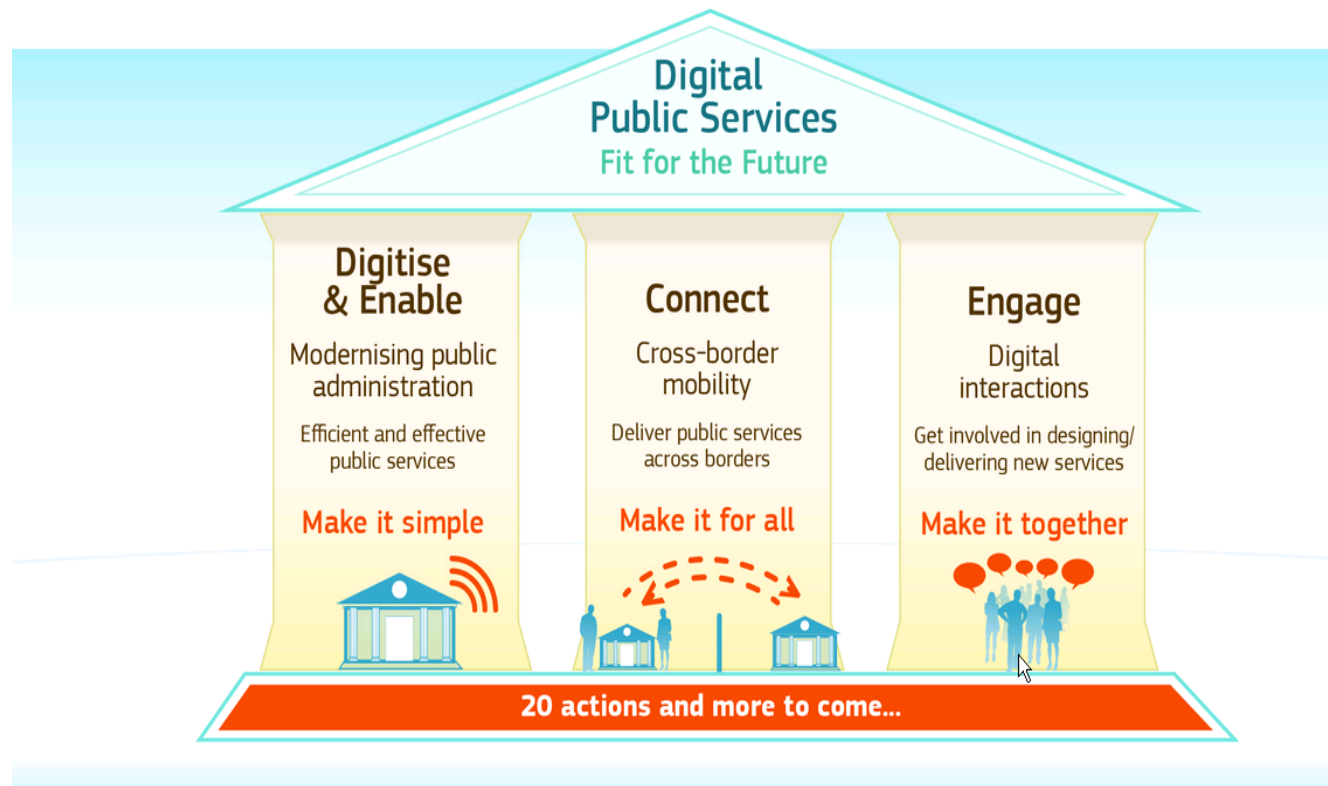

# eGovernment Action Plan 2016-2020

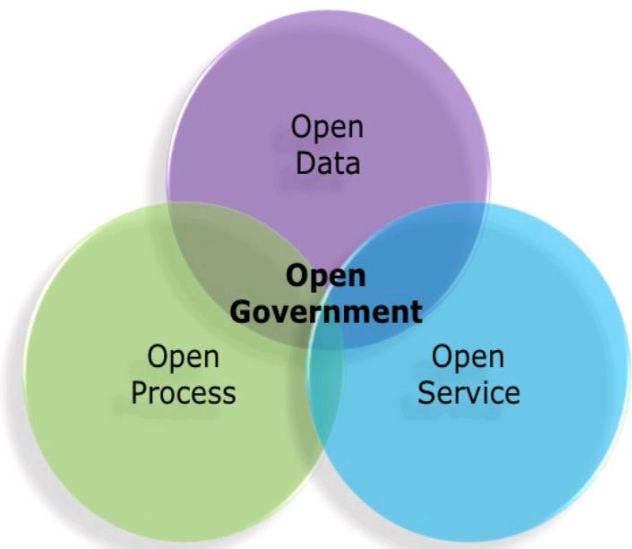

Accelerating the digital transformation of Government

# Open government

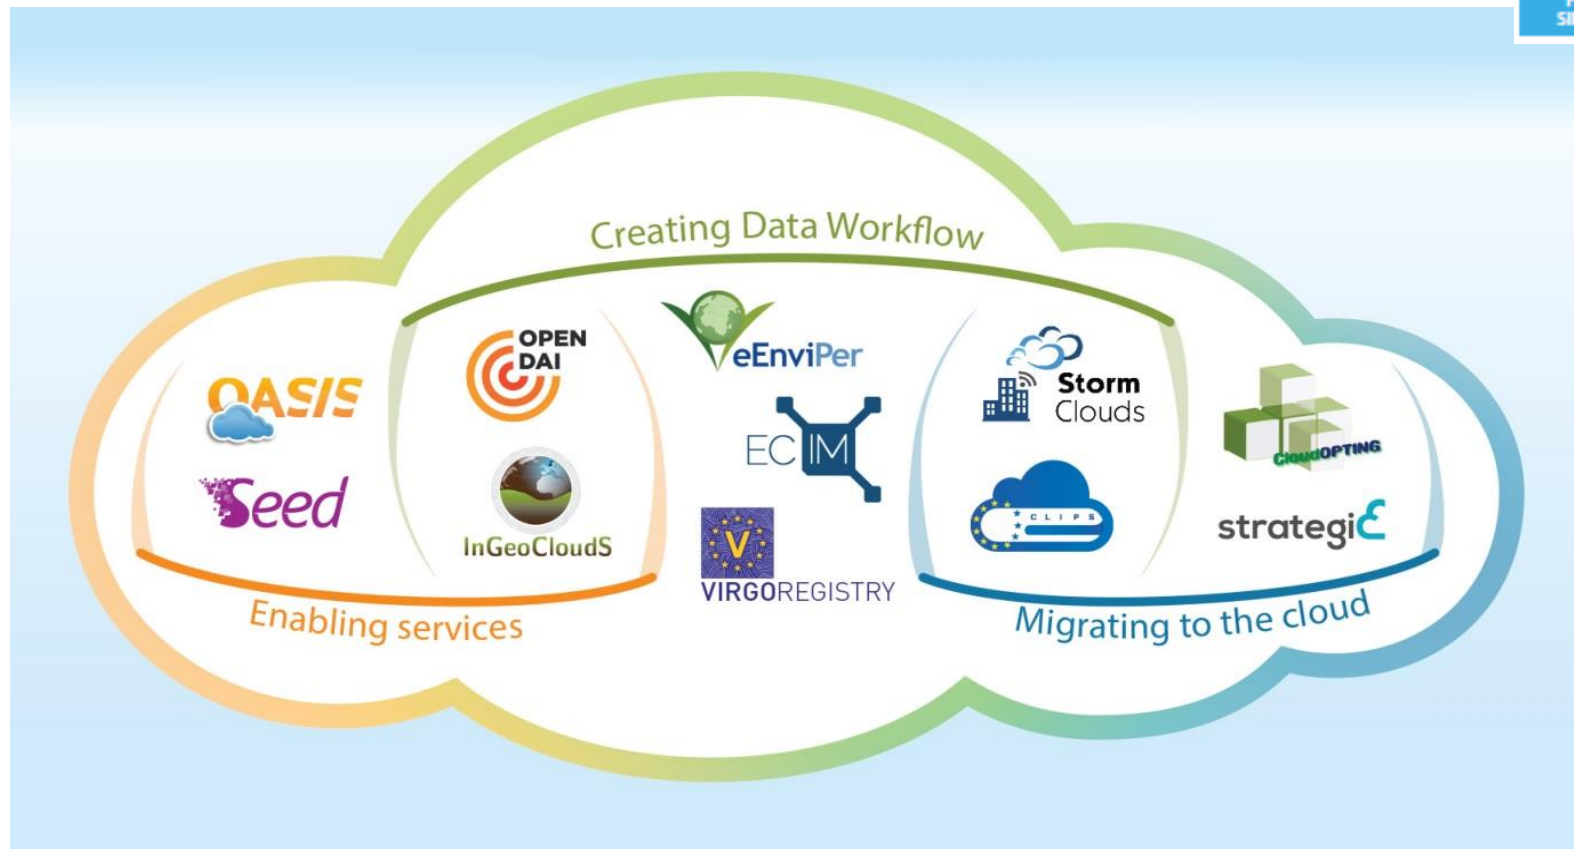

ICT-enabled public sector modernisation is one of the key priorities of Societal Challenge 6, part of the H2020 research programme. Public administrations should move towards an open government paradigm, composed of 3 axes: Open data, Open services and Open process.

# But which metadata model fits?
