- Collection of new security needs

WEB SECURITY IG

– *Aims to discuss about anything related to security*

– *https://www.w3.org/Security/wiki/Main_Page*

– *Collect new security needs*

– *Is trying to set up a security community*

(Has some problem finding right balance between task and people involvment)

SEPTEMBER WAS THE WORKSHOP SEASON

– *Permission*

– *Web Crypto Next*

– *Privacy*

– *...*

– *All of these bring a lot on Security & Privacy plate*

SECURITY REVIEWS

- *Security review process*
  - *http://www.w3.org/Security/wiki/IG/W3C_spec_review*

- *Review candidates*
  - *HTML5*
  - *Web Manifest*
  - *WebRTC*

- *And no activity going on...*

THE WEB SECURITY IG CASE

- *Obviously it is time to act…*

- *Ideas collected :*
  - *Focus on features*
  - *Recruit contributors (go and find them in OWASP, make Invited Expert easy)*
  - *Create a security TAG*
  - *Join force with PING*
  - *Make security a topic in W3C priorities*

THANKS !
