

W3C HCLS SCIENTIFIC DISCOURSE TASK GROUP

April 30, 2009 F2F Task Group Breakout Agenda

Goal: Develop a Roadmap for integrating Terminology, Experiment and BioRDF with Discourse ontology.

1. Use cases, opportunities and challenges.
2. Develop goals and one-year roadmap.

Chair: Tim Clark

Scribe: TBN

13:30	Introductions (10 min)	
13:40	Use cases for Discourse + terminology integration Document annotation, search & textmining BioRDF integration via terminology Lightweight & legacy terminologies Lifecycle support for information	(20 min)
14:10	Lightweight terminology bridging strategy (Ciccarese) SWANSIOC plus SKOS	(30 min)
14:40	Can we generalize term relationships to statements? Reification view, position view, provenance view	(20 min)
15:00	Break (10 min)	
15:10	Ontologies as tools in scientific activity (Carusi)	(25 min)
15:30	Use cases for Experiment & ORE + Discourse Experiment annotation & methods sharing Data and computation provenance Documents plus data publishing BioRDF integration via Experiment	(30 min)
16:00	Roadmap Deliverables & tasks Roles & assignments Schedule of deliverables	(30 min)
16:25	Summation & Action Items	(5 min)
16:30	Adjourn
