

# Share-PSI 2.0

## 3<sup>rd</sup> Share-PSI Workshop

First Review Meeting

Lisbon 5 December 2014

Daniel POP

Share-PSI 2.0 Agreement no. 621012

# Workshop Overview

Venue	Universitatea de Vest din Timișoara 
Dates	16 - 17 March, 2015
Topic	Open Data Priorities and Engagement
Programme / Organising Committee	<a href="http://www.w3.org/2013/share-psi/workshop/Timisoara/programme">29 members</a> ( <a href="http://www.w3.org/2013/share-psi/workshop/Timisoara/programme">http://www.w3.org/2013/share-psi/workshop/Timisoara/programme</a> )
Call for Participation	<a href="http://www.w3.org/2013/share-psi/workshop/Timisoara/">14 Nov 2014</a> ( <a href="http://www.w3.org/2013/share-psi/workshop/Timisoara/">http://www.w3.org/2013/share-psi/workshop/Timisoara/</a> )
Proposals review	2 - 11 February, 2015
Agenda definition	TO DO
Workshop	TO DO
Publish the report	TO DO

# Workshop Topics

- How different organisations, public and private, have **identified** and **prioritised** their data sets;
- Examples where datasets have been **crowd-sourced** to circumvent reluctance to publish the official version and the impact this is having;
- How PSI providers have collected and responded to **demand** for **specific datasets**;
- How **users** of data have **communicated** with **providers** and whether the providers feel that their efforts are worthwhile.

In short, this workshop is about the relationship between data owners and data re-users, whether those re-users are from other parts of the same organisation or external to it. The focus is on the public sector but, as ever, there are many lessons that can be learned from the private, research and cultural heritage sectors which are equally welcome.

# Workshop Aims

To help define Best Practice and available methods for:

- **assessing the priority** order for releasing datasets;
- making high quality **reference datasets** available;
- making available data that may be **incomplete** or **imperfect** in such a way that it is valuable to re-users but that does not put a heavy burden of liability on providers;
- receiving and acting on **feedback** from the user community.

# Venue: Universitatea de Vest

- Capacity
  - Aula Magna: 400 seats
  - Lecture rooms (120 seats)
  - 9 Meeting Rooms (>30 seats each)
- Large coffee break space
- Exhibition place

Share-PSI 2.0 Agreement no. 621012

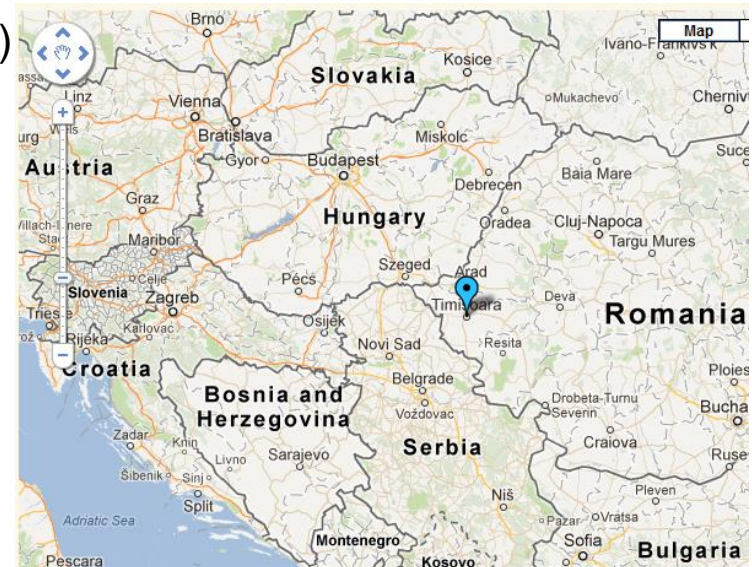

# Timișoara

- 3<sup>rd</sup> most populous city in RO (+300,000 inhabitants)
- + 50,000 students
- 2<sup>nd</sup> biggest airport in the country
- ~10,000 employed in IT
- Started the 1989 revolution against the Communist regime
- Oldest brewery in Romania
- 1<sup>st</sup> European city and second worldwide to New York to be lit by electric street lamps (1884)
- Used as “testbed” for Austrian experiments: horse-drawn trams, gardening, channels etc.

# Engaging external communities

- Open Data Hackathon (fundatia.ro)

- Digital Cultural Heritage Community (National Heritage Institute, local/regional libraries, SMEs etc. & LoCloud)
- Romanian Government, Smart Cities Association Romania, Open Data Coalition Romania
- ePSI platform
