

- The Hungarian Scientific Bibliography ( MTMT)
  - Collects metadata about scientific publications and their citations
  - A national service with 5+ million records
  - Two-level quality control by librarians
  - MTMT is unique in the sense of
    - National scope
    - Controlled authority data
    - Unambiguous institutional authority

- **Open Data at MTMT**
  - Publication lists
  - Statistics for researchers, labs, faculties, etc.
    - Used by research funds, government bodies, accreditation councils
  - Open access links
  - Journal data
- **Problems**
  - MTMT cannot make bought data open
  - MTMT cannot buy all data: manual input needed
