-

# Deliverables

- A report describing a series of (prioritized) industry use cases.
- An analysis of what standards (existing or new in the ecosystem as a whole) might help address those use cases.
- Optionally: Community Group reports to experiment with how to address the use cases.

# Discussion Topics

1. Management & Distribution

2. User Action

3. Settlement

# CAPABILITIES

<https://www.w3.org/2002/09/wbs/73816/digoff201703/>

- Each person has 9 tokens to allocate as they see fit.
