INTRODUCTION

Grant Agreement Preparation Forms (GPF's) have been designed to facilitate the project negotiations and the production of the grant agreement. It is a main communication instruments between the co-ordinator representing the Consortium and the Commission's Project Officer. Essentially the forms are used to identify the beneficiaries that will sign/accede to the grant agreement, to determine the eligible costs and Community contribution . The forms also include a standard declaration to be signed by each participating organisation.

To assist the filling in of the GPF's the following is made available:

- Annotations – these are attached to the standard forms and should be read carefully
- Pre-filled legal information (see below)
- NEF – NEF is an online tool to be used by the co-ordinator and the beneficiaries to edit the content of the GPF's

Legal information is held in the A2.1 form. This information is pre-filled by the Commission services using either information taken from the Commission database or from the proposal. Depending on the validity of this information, the organisation concerned may have to supply to the Commission with a so called "identification fiche" and supporting legal documents. For instructions on this, see the annotations to the A2.1 form.

The budget table (A3.1) is to be used in Part A of Annex I of the grant agreement.

Abstract ⁹ (max. 2000 char.)

Given the importance of the World Wide Web to communication in all walks of life, and as the share of English Web pages decreases and that of languages spoken in the European Union increases, the importance of ensuring the multilingual viability of the World Wide Web is paramount.

In order to build on current internationalization of the Web and move it forward, it is important to raise awareness of existing best practices and standards related to managing content on the multilingual Web, and look forward to what remains to be done.

The project is coordinated by the World Wide Web Consortium (W3C), an organization of currently over 400 members worldwide from research and industry, headed by the Web's inventor, Sir Tim Berners-Lee. The other partners represent stakeholders from a range of affected areas.

The project will last for two years. At the core will be four workshops, led by the partners but open to public participation. The dissemination of information and discussions arising from the network will be supported by publicly archived mailing lists and other tools such as a wiki, a twitter stream, etc. Information and announcements will be on the W3C web site, which will guarantee high visibility and stable long-term access by the public.

Partners will also provide input to practical initiatives that will be carried out in parallel at the W3C. Two face-to-face meetings and a mailing list are planned to facilitate these discussions. These initiatives are aimed at supporting the development of the multilingual Web by providing an online internationalization validator, training materials related to web internationalization, and results for a test suite for internationalization features of major browsers. The actual work on those initiatives is not funded by the Thematic Network, however these initiatives provide a channel for the network to extend its influence far beyond the end of the project.

1- As an authorised representative to sign the grant agreement or to commit the abovementioned organisation, I am fully aware that a grant agreement may not be awarded to an applicant who is, at the time of a grant award procedure, in one of the situations referred to in Articles 93(1), 94 and 96(2)(a) of the Council Regulation (EC, Euratom) N° 1995/2006 of 13 December 2006 on the Financial Regulation applicable to the general budget of the European Union [OJ L 390, 30/12/2006, p1].

As a consequence, I certify that:

- In compliance with article 93(1) of the abovementioned Regulation, none of the following cases apply to our organisation:
 - a) it is bankrupt or being wound up, is having its affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
 - b) it has been convicted of an offence concerning its professional conduct by a judgment which has the force of res judicata;
 - c) it has been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
 - d) it has not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which it is established or with those of the country of the contracting authority or those of the country where the contract is to be performed;
 - e) it has been the subject of a judgment which has the force of res judicata for fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the communities' financial interests;
 - f) it is currently subject to an administrative penalty referred to in Article 96(1) of the above-mentioned regulation.
- In compliance with article 94 of the abovementioned Regulation, and as far as the current grant award procedure is concerned, our organisation:
 - g) is not subject to a conflict of interest;
 - h) has not made false declarations in supplying the information required by the Commission as a condition of participation in the grant award procedure or does not fail to supply this information;
 - i) is not in one of the situations of exclusion, referred to in the abovementioned points a) to f).

2- As an authorised representative to sign the grant agreement or to commit the abovementioned organisation, I also certify that our organisation:

- is committed to participate in the abovementioned project;
- has stable and sufficient sources of funding to maintain its activity throughout its participation in the abovementioned project and to provide any counterpart funding necessary;
- has or will have the necessary resources as and when needed to carry out its involvement in the abovementioned project.

3- As an authorised representative to sign the grant agreement or to commit the abovementioned organisation, I finally certify that all the information relating to our organisation set out in the different Grant Agreement Preparation Forms are complete, accurate and correct; and that the estimated costs meet the criteria for eligible costs for CIP ICT-PSP projects – as established by the EC model grant agreement – are notably based on our usual accounting and management principles and practices, and reflect the costs expected to be incurred in carrying out the foreseen work described in Annex I (description of work).

4- Our organisation is fully aware that the Commission may impose administrative or financial penalties on legal entities who are guilty of misrepresentation in supplying the information required by the Commission as a condition of participation in the grant award procedure or fail to supply this information; have been declared to be in serious breach of their obligations under any contract/grant agreement covered by the budget of the Community. Such penalties shall be proportionate to the importance of the contract/grant agreement and the seriousness of the misconduct, and may consist in their exclusion from the contracts and grants financed by the budget of the Commission for a maximum period of ten years and payment of financial penalties.

SME means micro, small and medium sized enterprise within the meaning of Recommendation 2003/361/EC in the version of 6 May 2003 (see http://ec.europa.eu/enterprise/enterprise_policy/sme_definition/index_en.htm).

An enterprise is considered as an SME, taking into account its partner enterprises and/or linked enterprises (please see the above mentioned recommendation for an explanation of these notions and their impact on the definition), if it:

- employs fewer than 250 persons
- has an annual turnover not exceeding EUR 50 million, and/or
- an annual balance sheet total not exceeding EUR 43 million
- is autonomous

The headcount corresponds to the number of annual work units (AWU), i.e. the number of persons who worked full-time within the enterprise in question or on its behalf during the entire reference year under consideration. The work of persons who have not worked the full year, the work of those who have worked part-time, regardless of duration, and the work of seasonal workers are counted as fractions of AWU. The staff consists of:

- employees;
- persons working for the enterprise being subordinated to it and deemed to be employees under national law;
- owner-managers;
- is autonomous

partners engaging in a regular activity in the enterprise and benefiting from financial advantages from the enterprise.

ATTENTION: Apprentices or students engaged in vocational training with an apprenticeship or vocational training contract can not be included as staff. The duration of maternity or parental leaves is also not counted.

The data to apply to the financial amounts (e.g. turnover and balance sheet), as well as to the headcount of staff, are those relating to the latest approved accounting period and calculated on an annual basis. They are taken into account from the date of closure of the accounts. The amount selected for the turnover is calculated excluding value added tax (VAT) and other indirect taxes.

In the case of newly-established enterprises whose accounts have not yet been approved, the data to apply is to be derived from a bona fide estimate made in the course of the financial year. These organisations must insert "N/A" for the two questions relating to the duration and the closing date of their last approved accounting period.

33. Non-SME

An enterprise that is not an SME.
